---

I am a detail-oriented web developer with a diverse background in classical music. My passion for finding creative solutions draws me to the unique challenges that development presents.

## SKILLS

• Ruby • PostgreSQL • JavaScript • Node.js • MongoDB • jQuery • HTML  
• Ruby on Rails • Mongoose • React.js • Express.js • Bootstrap • Handlebars • CSS/SCSS

## EXPERIENCE

### General Assembly

Web Development Immersive  
December 2018 - April 2019

#### Projects:

**TradeStation** - Built with React, TradeStation allows users to make simulated stock trades based off of current market data. It's interactive charts and trading apparatus utilize real-time market data received from a 3rd party API. All user data is stored in a Rails API that calculates a trade's profit/loss and updates the user's account balance accordingly.

**FileBucket** - On a team with three other developers, we built an application that allows users to upload and store images in a secure database. FileBucket utilizes MongoDB, Mongoose, Node.js and Express.js on the back-end; JavaScript, Bootstrap, and Handlebars on the front-end, and AWS s3 for file hosting.

**SetSpace** - <https://github.com/mverost44/group-events-app-client> A full-stack application built with Ruby on Rails, PostgreSQL, JavaScript, Handlebars, and Bootstrap. This app allows users to effectively manage groups and events, as well as join public groups and events.

**Tic Tac Toe** - My first front-end application. I constructed a responsive tic tac toe board and game logic using JavaScript, jQuery/AJAX, and Bootstrap.

### BookLive Inc

Customer Success/Client Web Master  
June 2018 - April 2019

- Worked remotely with a small team in a vigorous start-up .
- Created and maintained company websites
- Created and maintained client websites.
- Managed client accounts.
- Planned and executed various company events.
- Generated documentation for company procedures.

### Delaware North

Supervisor  
June 2017 - July 2018

- Managed teams in six locations.
  - Handled employee schedules.
- 

## EDUCATION

### New England Conservatory

Undergraduate Study in Trumpet Performance  
September 2016 - August 2018

### General Assembly

Completed a 12-week, 600+ hour immersive web development program in which I developed four full-stack web apps. Each project incorporates industry best practices and Git for version-control.
